

Impax appoints Sales Director

London, 2 September July 2015 - Impax Asset Management ("Impax") the specialist investment manager, focused on environmental markets and related resource efficiency sectors, today announced the appointment of Scott Thompson as Sales Director with responsibility for the UK, continental Europe and Asia. He reports to Ian Simm, Chief Executive.

Scott is a senior finance professional with experience in both trading and sales roles in tier one banks and successful start-ups. He joins Impax from Craigmore Sustainables, where he focused on sustainable investments in agriculture and forestry. Prior to this he was Head EMEA Sales at ETF Securities and has also held roles at J P Morgan and UBS. Scott holds an MA in Geography from Oxford and an MBA from INSEAD.

Ian Simm, commented:

"We are delighted to welcome Scott to Impax. He has over eighteen years of wide-ranging experience across both equity and real asset products, together with a strong personal commitment to sustainability and resource efficiency markets. Scott will lead our sales activity across key channels at a time when we are experiencing unprecedented levels of interest in our products."

Notes to Editors - About Impax Asset Management

Founded in 1998, Impax Asset Management is dedicated to investing in resource efficiency and environmental markets created by resource scarcity and the demand for cleaner, more efficient products and services. Impax, which employs 28 investment professionals and a similar number of support staff, has offices in London, Hong Kong, New York and Portland (Oregon). The firm manages ca. £3.1 billion* for investors globally across listed and private markets strategies.

Impax's listed equity funds seek out mis-priced companies that are set to benefit from the long-term trends of changing demographics, urbanisation, rising consumption, and the resultant increases in resource scarcity. Investment is focused on a small number of deeply researched global equity strategies across alternative energy, energy efficiency, water, waste, and food and agriculture related markets.

The private equity infrastructure funds follow an operationally focused, value-add strategy, investing in renewable power generation and related assets throughout Europe.

The Impax Climate Property Fund focuses on developing sustainable and energy efficient commercial property, primarily in the UK.
